## WHY CHOOSE OREGE ?

### Performance

A unique combination of customized thickening and dewatering services with unrivalled performance thanks to SLG technology, enabling you to reduce your transportation and disposal costs.

### Flexibility

Equipment rental with or without an operator. A turnkey solution: from the initial visit to help you configure your needs, to 24/7 service.

### Reactivity

**3 configurations:** skids, containers, trailers. Thanks to their compact size and «plug and play» configuration, the equipment can be quickly inserted into an existing installation, with minimum preparatory work.

### Zero investment:

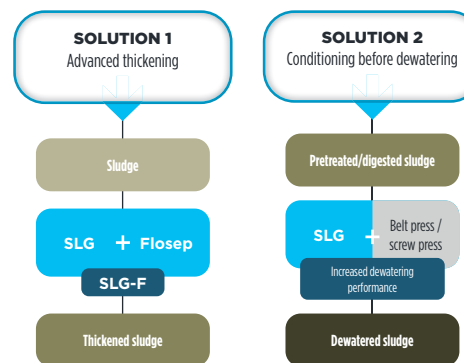

An excellent cost/performance ratio without investment. Outsource to reduce investment and operating costs.

## ENHANCE YOUR DEWATERING AND THICKENING PERFORMANCE WITH OREGE'S MOBILE THICKENING AND DEWATERING SERVICES.

We offer a unique combination of patented technologies (SLG®) and customized services to *industrial and agricultural companies, municipalities and water/wastewater operating companies.* An outsourced solution to reduce your costs without investing.

- ✓ **3 equipment configurations:** skid units, containers, trailers :
- ✓ Equipment rental with or without an operator.
- ✓ Preliminary site visit to help define your needs.
- ✓ Commissioning by a field technician.
- ✓ 24/7 customer service.
- ✓ Dedicated telephone line.

Orege has developed 2 solutions for 2 different applications.

## WHEN SHOULD YOU USE OREGE'S SERVICES ?

- Operational emergencies due to a failure in the sludge treatment process that could lead to regulatory non-compliance or pollution .
- Temporary back-up during scheduled maintenance operations on existing installations.
- Temporary relief during rehabilitation or extension work on existing facilities.
- Management of seasonal variations in sludge volumes (production peaks).
- Emptying of sludge tanks and lagoons.
- Provisional set-up to assess the profitability of an investment project.
- Mobile sludge thickening / dewatering at remote sites with no sludge treatment facilities. Shared use on several sites.

## OREGE SOLUTIONS ARE PART OF A CORPORATE SOCIAL RESPONSIBILITY APPROACH.

- Reduction in carbon footprint for thickening and dewatering.
- Preservation of terrestrial and aquatic environments.
- Facilitation of societal acceptance of the treatment and recovery of sludge.
- Optimization of renewable energy production.
- Preservation of resources and reduction of dependence on fossil fuels.

Orege contributes to 8 of the sustainable development goals established by the Member States of the United Nations.
